Story and half stone house with weatherboarded gable above tie beams. 2 late dormers on roof. House built in three sections. Earliest said to be eastern, the others dated by inscriptions - 1751, 1765. The principal features of interest are 3 original casements, 2 with original glazing and shutters. Glass size 7x9; muntins about $1\frac{1}{4}$ " wide. Each of the three units is

of one large room with the north end partitioned off creating a series of small rooms and closet. There is little original trim but the old door and trim exists between the east and middle room. It is vertically sheathed on the east side and the battens are laid on the inside to simulate panels. The rails in the battens are
